### Outlaws Hide In Valley Near Centralia And Resist Capture

## ANCHER FALLS DEAD

### Shot From Ambush By Fugitive Radicals; Comrades Un- able To Recover Body

Centralia, Wash., Nov. 16.—A posse of 40 men today scoured the country in the neighborhood of Centralia, where they were searching for a number of I. W. W. who were believed to have participated in the shooting of members of the American Legion during the Armistice parade last Tuesday.

Bland, believed by the authorities to be the man who shot and killed Warren Grimm, commander of the local American Legion, and a man named Hansen, also suspected of complicity in the shooting, are reported to be among those hiding in the valley.

Hansen was named in the alleged confession of L. Roberts, an I. W. W., having been in the group which was in the Centralia parades.

Member of Posse Killed.

Little was made public today regarding a reported clash yesterday between two posses and alleged I. W. W. Reports said one posse member, believed to be John Hansen, a rancher near Centralia, Wash., aged 49, fell during shooting. Today it was stated that Hansen was dead and his body lying in a cabin with the radicals inside.

Members of the first posse said it was probable the recovery of Hansen's body would be attended by further bloodshed because of the fact that he was within 100 yards of a hunter's cabin, where the I. W. W. were believed to be still lurking. The place was surrounded by dense woods. Every effort is being made to locate them.

## RAILMEN TO CONTINUE FIGHT ALL ALONG LINE

### Brotherhoods Demand General Wage Increases; Belittle Hines' Offer

Chicago, Nov. 16. — Timothy Shea, president of the Brotherhood of Locomotive Firemen and Engineers, tonight declared that the railroad brotherhoods were prepared to continue their efforts for general increases in pay, although Director General Hines, of the railroad administration, had offered time and one-half pay for overtime to men in the slow freight service.

Telegrams announcing receipt of the director general's decision at the brotherhood headquarters were received today by Mr. Shea and Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers. Both departed at once for Cleveland for a conference of brotherhood chiefs tomorrow.

"This decision is specifically on the demands of the road service workers for time and one-half pay for overtime," said Mr. Shea. "The yardmen were granted this schedule January 1."

"If time and one-half is granted, the brotherhoods are prepared to renew their fight for increases along the entire line of railway workers. If the demand is turned down, we will continue negotiations providing the director general leaves a loophole."

There will be no strike until our last effort to reach the desired end by arbitration is exhausted.

"Apparently the government is giving us about \$26,000,000 a year in time and one-half time for overtime and taking away \$30,000,000 in arbitrary and special allowances."

## NEGRO LYNCHED BY MOB OF MASKED MEN

### Was One Of Four Alleged To Have Beaten And Robbed Missouri Farmer

Moberly, Mo., Nov. 16. — A negro, one of four said to have beaten and robbed Edward Thompson, a farmer, Thursday night, was lynched here today by a mob of 100 masked men. The negro's three companions escaped after they had been taken from the jail at Moberly early today and brought to Moberly secretly. Later it was reported two had been captured and were in custody at a point unknown to the mob. It was reported that farmers had gone to adjacent counties in search of the escaped blacks.

Last night large numbers of farmers congregated on the streets here and fearing mob violence, Sheriff Owens took the four negroes to Moberly county. Learning of this, the mob motored there and demanded of Sheriff Jesse Starnpore that he turn over the negroes to them. The sheriff pleaded with the men but the jail keys were taken forcibly from him and the blacks were returned here just before daybreak, clad only in their nightclothes.

A large fire had been built in a public park and sight of it produced a noisy demonstration among the negroes. A rope was placed over the head of one of them and swung over a limb of a tree. The mob pulled and the limb broke.

The negro started running as he fell. Four guns flashed and he was killed instantly. At the sound of the shots, the other three escaped.

The negroes are alleged to have beaten Thompson into unconsciousness and robbed him of \$12 on the outskirts of Moberly.

## WHOLE FAMILY WIPED OUT BY FIRE NEAR BINGHAMTON

### Binghamton, Nov. 16. — Trapped in their apartments in Endicott, a suburb, after an outside stairway, the only means of exit, had burned away, Mr. and Mrs. Harold Hess and their two children, aged 17 years, and five months, respectively, were burned to death early this morning. Mr. and Mrs. Ray Roebacker, also tenants of the building, were burned severely and may die.

## HANDLEY-PAGE PLANE BADLY DAMAGED IN FORCED LANDING

### Cleveland, Nov. 16. — The giant Handley Page airplane which left Minneapolis Friday morning with about 1,500 pounds of freight aboard, in an attempted non-stop flight to Chicago, made a forced landing at the North Randall race track today and was so badly damaged that it will require at least two weeks to make repairs.

## DOWN WITH AMERICA, IS CRY.

### Berlin, Saturday, Nov. 15. — Cries of "Down With America" and "Down With America" were raised by the crowds who marched to the Wilhelm Platz and gathered in front of the old American embassy today.

As an aftermath to the meeting arranged by Matthias Erzberger, vice-chancellor and minister of finance, Friday night, at which speeches favoring the league of nations were made and which was broken up by hostile persons, the mob later proceeded to Erzberger's office in Budapest platz, where Erzberger was hoisted.

## 400,000 MINERS STILL ON STRIKE DESPITE RECALL

### More Stringent Conser- vation Of Coal May Be Necessary

## RESUME PARLEY TODAY

### Both Sides Hope For Settlement; Men Demand Six Hours' Daily Work In Mines

Chicago, Nov. 16. — Indications in the coal strike situation tonight were that notwithstanding a predicted loosening of the tension in a few states, the seriousness of conditions could not be minimized. In Chicago, where regional coal and railroad representatives were scheduled to meet tomorrow, more stringent conservation of fuel was expected.

Approximately 400,000 soft coal miners remained on strike in spite of the action of the national officers in rescinding the strike order in obedience to the mandate of the federal court. Although officially the strike has ended, the miners still were on strike. Indications were that they would remain out except possibly in West Virginia, where union leaders and operators were calling upon them to return to the mines tomorrow, and in Wyoming, where a wage agreement has been affected and operations were expected to be resumed.

Resume Washington Conference.

Washington, Nov. 16. — Negotiation of a new wage scale in the soft coal industry stood in much the same situation tonight as when miners and operators met at Buffalo in September to frame a contract to replace the Washington wage agreement.

This time, however, there was no threat of a strike, and both sides were ready to resume their conference tomorrow in the hope of reaching a quick settlement.

Some of the operators protested that union miners had failed to return to work as ordered by Federal Judge Anderson at Indianapolis and in the face of the withdrawal of the strike order by officers of the United Mine Workers of America. It was indicated that this would be brought up at the joint conference.

John L. Lewis, acting president of the miners' organization, still holding the miners' demands just, took issue today with the statement of Secretary Wilson that a wage increase of 60 per cent would make them a favored class of workers.

The demands submitted to the operators yesterday re-affirmed the six hour day but omitted reference to "from bank to bank." Lewis explained. The miners now are asking a maximum of six hours working time in the mines. The time required to go down into the mines and return to the surface would add an average of about a half hour to the day, Lewis explained.

There were no indications today that operators outside the central competitive field intended to accept any agreement which might be reached in that territory in advance of the agreement itself.

Mr. Lewis declared that miners' representatives from outlying districts would remain here until a settlement in the coal industry was reached.

"I think the operators will negotiate with them if they expect to operate their properties," he said.

## To Withdraw Federal Troops.

### Charleston, W. Va., Nov. 16. — Federal troops doing strike duty in the coal mining fields of Southern West Virginia will be withdrawn from the state early tomorrow, it was learned from an authentic source here tonight.

## SMITH'S MOTHER NEARS CRISIS.

### New York, Nov. 16. — Mrs. Catherine Smith, mother of Governor Smith, is fast approaching a crisis in her illness, physicians in consultation announced tonight. Mrs. Smith was stricken with double pneumonia about a week ago at her daughter's home in Brooklyn. Until the crisis is reached, Dr. John H. Reb stated tonight he would be unable to tell whether the patient would recover.

## ASKS RECOUNT OF OHIO VOTE.

### Washington, Nov. 16. — The Anti-Saloon league of America has asked for a recount of the vote in Ohio on the question of ratifying the constitutional prohibition amendment, because of the many errors already reported. Wayne B. Wheeler, attorney for the organization, announced tonight. Mr. Wheeler said that on a clear-cut prohibition issue, Ohio was lost by over 40,000, while the amendment was defeated by less than 500.

## DENIES MEXICAN RADICALISM.

### New York, Nov. 16. — Denial that Mexico is connected in any way with radical groups in this country was made tonight in a statement issued by Ramon P. DeNegri, consul general of Mexico, in this city. Attention of the state department recently was called to a letter from Consul DeNegri to Florida Berquez, a Mexican senator, endorsing the principle of "nationalization."

## D'Annunzio Continues To Occupy Italian Territory

### Washington, Nov. 16. — Advice to the state department today said that d'Annunzio, after declaring his occupation of Zara, on the Dalmatian coast, had returned to Fiume.

According to the department's information, d'Annunzio reached Fiume yesterday afternoon and was accorded a great demonstration by the populace. He is said to have declared his purpose to occupy other territory, including a part of Istria, which he claims should form an independent state to relieve Italy of responsibility to the Allies.

After taking possession of Zara, d'Annunzio left there an officer of his staff with shock troops and Carabinieri.

Fiume, Italy, Saturday, Nov. 15. — The expedition of Capt. Gabriele d'Annunzio is proceeding along the Dalmatian coast, but it is not expected that it will go farther than Spalato. It is believed that d'Annunzio will not stay in Dalmatia to establish a regime like that in Fiume, but will return to Fiume soon, possibly on Sunday. The expedition has been augmented by several warships recently of the Ancona fleet, including the dreadnaught Dante Alighieri and the destroyers Mirabello and Abba.

Lack of communication and the censorship make it difficult to obtain details of the expedition.

## UNIONS WILL FIGHT ANTI-STRIKE LAWS

### Railroad Workers Would First Be Called Out; Vote Soon To Be Taken

### Chicago, Nov. 16. — The Chicago Federation of Labor today endorsed action of the International Association of Machinists in calling for a vote "to organize grand lodge officers to co-operate with other unions in declaring a strike on the railroads of the United States at such time as may be found necessary to protest against anti-strike legislation and to prevent a condition that will establish involuntary servitude."

The action means that the federation calls upon its locals to vote in protest against "anti-strike legislation" and send the returns to their international officers.

The machinists' union circular also says:

"This strike vote is to be taken by all local lodges, but it is to affect only railroad members of the United States unless it becomes necessary to support them by a general strike."

John Fitzpatrick, president of the federation, and chairman of the general union committee in charge of the steel workers' strike, in a speech, declared that "the federal reserve bank had to go to the aid of the steel corporations or we would have had a financial panic in this country." He also asserted that when W. Z. Foster, secretary of the committee, was prevented from speaking in Johnstown, Pa., recently, "a lot of men armed with revolvers tried to make him sign a paper ordering the men back to work."

James H. Maurer, president of the Pennsylvania State Federation of Labor, another speaker, declared it was his conclusion that "the stage is set to crush the American labor movement."

## ANOTHER REVOLT IN AUSTRIA SEEMS NEAR

### Vienna Government Reported Unable To Maintain Power; Economic Distress Prevails

### (By the Associated Press.) Bern, Switzerland, Saturday, Nov. 15. — A serious crisis appears in Austria, according to advices here. Political discontent and the economic distress are arousing the people. The Vienna government, it is reported, is unable to maintain its power and is likely to fall to pieces. Several groups declare for a union with Germany. It is asserted that the Austrian army will not attempt to prevent a new revolution, as its officers have for some time been gradually replaced with Socialists.

Discussing Miss Goldman's claim to citizenship, Mr. Palmer said she was 24 years old when her father was naturalized and that her age barred her from inheriting naturalization rights from him. The fact that her husband obtained his citizenship through fraud, Mr. Palmer added, cancelled any claim she might have. The ramifications to which the plots and plans of the group of anarchists headed by Emma Goldman have extended were reviewed by the Attorney General.

Declaring that both Matthew Schmidt and David Kaplan, who are serving prison sentences for complicity in the destruction of the Los Angeles Times building, were members of the Goldman clan, he showed also that she advocated violence and had incited riots as early as 1912, when she was sentenced to serve one year on Blackwell's Island, after indictment on three charges. ## OFFERS TO PAY DEPORTED REDS' TRANSPORTATION

### Soviet Agent Here Says His Government Would Gladly Bear Expense

## RUSSIANS WANT TO GO

### Anxious to Leave U. S. Because of "Unwarranted and Cruel Treatment"

### New York, Nov. 16. — Ludwig C. A. K. Martens, self-styled "ambassador of the Russian Soviet government to the United States," has offered to provide transportation from the United States to Russia for all Russian citizens who desire to leave America, or whose presence in the United States is undesirable to the federal government. This offer was made in a letter written by Martens to Secretary of State Lansing and made public here tonight.

In his letter, Martens protests against the "unwarranted and cruel treatment" to which many Russian citizens in the United States are subjected "by federal and state officers, as well as by mobs acting without authority." He proposes that the Soviet government be permitted to return these citizens to Soviet Russia and declares that he has received thousands of applications from such citizens who are anxious to return to their homes.

Martens was arrested for contempt Saturday and released on \$1,000 bail after he had refused to appear and bring certain documents before the Lusk legislative committee investigating radical activities in New York.

He based his refusal on the ground that all communications passing between himself and his government were privileged. When brought before the committee Monday and to bring papers with him.

Calling attention to press reports that it is proposed to deport certain Russians to parts of Russia under control of the enemies of the Soviet government, Martens, in his letter to Secretary Lansing, protests that such deportation would mean certain death for the persons deported and would constitute "a flagrant breach of all principles of international law."

"It is quite unnecessary," he says, "for the government of the United States to take the trouble of deporting citizens of the Russian Socialist federal Soviet republic. They are only too anxious to leave. I therefore, respectfully suggest that the United States government could easily be relieved of the presence of unwelcome Russian citizens if those citizens of Russia whose lives are becoming unbearable in the United States were permitted to leave. I desire to assure you that the government I have the honor to represent is ready and willing to provide means of transportation from the United States to Soviet Russia for every Russian citizen in this country who desires to leave or whose presence in the country is undesirable to the government of the United States."

Soon to Deport Radicals.

Washington, Nov. 16. — Replying to a senate inquiry as to what had been done toward deporting Emma Goldman and Alexander Berkman, Attorney General Palmer declared tonight that the woman's claim to American citizenship was "fallacious" and that Berkman, by his own admission, was an anarchist. The Goldman case is under consideration by Immigration authorities in New York and the attorney general's statement was taken to mean that the government soon would attempt to send her back to Russia, where she was born.

Discussing Miss Goldman's claim to citizenship, Mr. Palmer said she was 24 years old when her father was naturalized and that her age barred her from inheriting naturalization rights from him. The fact that her husband obtained his citizenship through fraud, Mr. Palmer added, cancelled any claim she might have. ## EXPECT TREATY FIGHT WILL END THIS WEEK

### Conference Today Between Pres- ident And Senator Hitchcock May Determine Its Fate

Washington, Nov. 16. — A conference tomorrow between President Wilson and Senator Hitchcock, administration leader in the senate contest over the peace treaty, was expected tonight to determine largely the fate of the treaty and plans for adjournment of the special session of congress.

Senator Hitchcock will see the President before the senate reconvenes to take up the final reservations to the treaty and expects to obtain from him a final word on the form of reservations he will accept. The conference was arranged at Senator Hitchcock's request after seeing a number of Democratic leaders.

Definite outcome of the senate treaty controversy this week—either by a deadlock or reserved ratification—and adjournment of the special session of congress, tonight seemed assured. With the cloture rule in effect, the senate tomorrow will take up the remaining committee reservations and after disposal of dozens of individual reservations reach the last stage of the ratification resolution.

With final action on the treaty, adjournment sine die of the session which began May 19 is planned before the new and long session begins two weeks from tomorrow. All members are hopeful for a few days' rest and travel allowances.

What the house will do while the senate is in the last stage of the treaty fight had not been determined today. The railroad bill will be taken up again tomorrow and probably passed by tomorrow night or Tuesday. Not much will be done after that. If forced to await the senate's action on the treaty, house leaders hope members may leave under a "gentlemen's recess agreement."

Former Vice Chancellor Is Fined  
For Refusing To Answer  
Question of Deputy

### Berlin, Saturday, Nov. 15. — Dr. Karl Helfferich, former German vice-chancellor, who was fined today 500 marks for refusing to answer a question by Deputy Cohen at the inquiry of the subcommittee of the assembly on war responsibility, counted out the money and placed it on the table.

Deputy Gothein replaced Herr Wernuth as chairman, the latter having declared his disagreement with the committee's decision. The new chairman became enraged at the ending demonstration by the spectators and threatened to exclude the newspapermen and others if there was a repetition.

Deputy Cohen asked Dr. Helfferich his reason for the snub. The former vice-chancellor charged the leader of the Independent Socialists with having accepted funds from Joffe, the Russian Bolshevik propagandist, with which the radicals had carried on their propaganda resulting in the "melting" of the front and general internal collapse. He declared he could not recognize Cohen out of patriotic motives. "You can prosecute me to the limit," he added, "but no power on earth can force me to answer Cohen."

Deputy Cohen refuted the charges and bitterly attacked Helfferich's pan-German agitation. He accused him of being responsible for the German breakdown.

After further accusations, the session adjourned, the chairman explaining that the sitting was for investigation, not recrimination.

## 500,000 N. Y. MILK CONSUMERS DECLARE STRIKE IS ON TODAY

### New York, Nov. 16. — The issue in the milk "strike" of more than 500,000 consumers in Greater New York, scheduled to begin tomorrow, tonight was defined as a "demonstration of the ability of the middle class consumers to organize."

No reduction in price is expected to result from the boycott, which is to be directed by the city parliament of the community councils of national defense. Only children under seven years of age and invalids are exempt from the "strike order," which provides that the boycott shall last three days a week.

proved that he had not only heard her speak, but frequently had consulted with her as to methods to be employed in effecting the destruction of the government.

The connection of both Berkman and Emma Goldman with the Bolshevik movement also was emphasized by Mr. Palmer. The activity of the Union of Russian Workers, said to be one of the most dangerous organizations in America and against which the government has directed a vigorous campaign, has been traced directly to the Goldman-Berkman headquarters, he said.

## REPORT JENKINS KIDNAPPING WAS A "PUT-UP JOB"

### On Charge of Conniving With Bandit, American Agent is Arrested

## MEXICANS HOLD HIM

### Opinion in Washington Charac- terizes Move as "Measure of Retaliation"

### (By the Associated Press.) Mexico City, Nov. 16. — William G. Jenkins, United States consular agent at Puebla, was placed under arrest Saturday and held under surveillance in his home following charges by officials of Puebla that Jenkins was not abducted by Federico Cordova, the bandit leader, but was in connivance with him, according to information received here last night.

The arrest of Jenkins came after 12 persons had sworn to statements before a judge in Puebla, declaring that Jenkins had been seen in company with Cordova, who accomplished his recent abduction from Puebla without restraint and with an apparent understanding with his alleged captors.

Review of Jenkins' Case.

Advices received in Washington from Mexico City on November 7, stated that Consular Agent Jenkins had been cleared of all suspicion of complicity in his kidnapping by Mexican bandits on October 17. The judge investigating the abduction, the dispatches added, took occasion to praise Jenkins as a friend of the Mexican people and a respected member of the community in which he had lived for a number of years.

Jenkins was held for \$150,000 ransom and the United States government, demanding his release, sent what was said to have been the strongest note ever dispatched in a dispute between the two republics. Jenkins was released on October 26, after his personal attorney, Senor Mestre, had paid the ransom to Cordova, the bandit leader.

An official statement issued in Washington on the abduction of Jenkins said that he would have to effect his own reimbursement of the money paid to the Mexicans who kidnapped him unless he could prove that the Mexican government was negligent in affording him protection. His standing as an official of the United States government had no bearing on the matter in any way, it was stated.

No Word at Washington.

Washington, Nov. 16. — No word had reached the state department through official sources tonight concerning the reported arrest of Consular Agent Jenkins at Puebla on charges of having connived with the bandit who abducted him. Officials said a report probably would reach here early tomorrow.

The charges against Jenkins were characterized as "absurd" in view of the recent investigation, by a judge who declared that the agent was not mixed up in any plot. The oft-hand opinion was that it was "a measure of retaliation," following late disclosures connecting some Mexican authorities with radical propaganda and in which the name of the Mexican consul general in New York was mentioned.

## ADMIRAL SIMS' NAME HISSED

### Charge Naval Officer with Political Motives for His Attack on Sinn Fein in Magazine Article

### New York, Nov. 16. — The name of Admiral Sims was repeatedly hissed by an overflow audience at the Lexington Opera house here tonight at an Irish mass meeting called to protest against the "military autocracy" of the English government in Ireland and against "any division of Irish soil into two parts." Men paraded in front of the theatre with placards reading "Kings and their princely offspring get our goat—away with them!"

Justice Cornelius J. Collins charged Admiral Sims with political motives in mentioning in recent magazine articles friction between the Irish and American sailors during the war. Repeatedly referring to Sims as "Sir Admiral" he declared "it is another evidence of how far some people will go in their love for England."

Former Supreme Court Justice John W. Coffey declared that the audience assembled as Americans and he led in singing the national anthem. Resolutions were adopted demanding Ireland be granted the right of self-determination.

## TOLEDO STILL IS WALKING.

### Toledo, Nov. 16. — Toledo complete its eighth day of walking today because of the absence of street cars, and it may be eight more days before the cars resume operation. It was said today by city officials who are working with Henry L. Doherty of New York.

Mr. Doherty, a week ago last, ordered the cars into Michigan when it became known that the people at an election on November 4 had chosen an anti-strike candidate.

## ROME GAINS FROM U. S. MEN

Cab Drivers and Guidebook Respected During Visit of General Pershing.

Rome, Italy.—"Telling palms" were extended to the enlisted personnel attached to General Pershing's staff during the American commander in chief's visit to Rome. Cab drivers, professional guides, beggars, novelty vendors and guidebook sellers preyed on the Americans with avidity. One soldier paid \$5 to be driven from the station to St. Peter's, a trip ordinarily costing 40 cents, or by trolley four cents.

A guide at the Coliseum exacted \$4 for taking three privates and a sergeant through the upper tiers, while another guide at St. Peter's demanded \$7 for taking two boys through the Vatican museum, both of which are free to the public.

## BOY'S LIFE IS SAVED

Hurt While Hanging Suspended From an Electric Wire.

Howard Zellner, ten-year-old boy, the other day hung suspended in mid-air 20 feet from the earth, holding on to an electric light wire, through which 2,800 volts of electricity was passing, until the current was turned off. Then he fell, and several men who tried to break his fall failed, and as a result he had a deep hole in his head. His index finger was entirely burned off by the current and several other fingers are burned to the bones. Zellner climbed the pole on Arch street while playing, and grasped hold of the wire, ignorant of the consequences. His life was saved because John Zerby, an electrician, saw his peril and had the current cut off, but his condition is critical.

Life Not Merely Lapse of Years.  
The mere lapse of years is not life. To eat and drink and sleep; to be exposed to the darkness and the light; to pass round in the mill of habit; and turn the wheel of wealth; to make reason our bookkeeper and turn thought into an implement of trade—this is not life. In all this, but a poor fraction of the consciousness of humanity is awakened; and the sanctities still slumber which make it most worth while to be.—James Martineau.

## GOOD SAILOR BUT ALWAYS THE GOAT

Dinny Didn't Eat Those 1,900 Denim Suits.

## ARMY WON'T LET HIM LAND

Was Only a Kid When He Left the Great Lakes to Go to Sea and Has Made Ten Round Trips to France—Ten Times He Has Been Refused Permission to Land—Has Extraordinary Appetite for Lead Pencil Shavings.

When the "trophy ship" Santa Rosa made fast to her pier at Hoboken, the first member of the crew to start down the gangplank was Dinny, who was bred in northern Illinois, and was only a kid when he left the Great Lakes naval training station to go to sea. The soldier guard at the bottom of the gangplank held up a forbidding hand. Dinny, being a sailor, disdained the landlubber's command, writes George C. Briggs in the Chicago News. The immediate result was an encounter about the middle of the inclined way, and the soldier retired precipitately to the pier while Bosn's Mate Claude Smith and others of the Santa Rosa crew dragged the obstreperous Dinny back on shipboard, placating him with promises that he should have a large meal of pencil shavings.

This incident led to a discovery of twofold interest. For one thing it disclosed that Dinny will do almost anything—waive his shore leave; waive his short tail—anything for a mouthful of pencil shavings. Lieut. Commander Horace L. Hall, executive officer of the Santa Rosa, confessed that it has kept him busy grinding up pencils in the pencil sharpener so that sawdust might be supplied to appease Dinny's insatiable appetite.

## It's Army Versus Navy.

The other thing of interest is that an extensive controversy has arisen between Uncle Sam's army on the one hand and the navy on the other, as to whether Dinny shall be allowed to land on the shores of his native country or whether, like the man without a country, he must remain forever an expatriate and sail the briny sea till it gets his goat.

"Nope; he can't come ashore," was the translated mandate of port of embarkation officials, communicated by an order to Lieutenant Commander Hall when sailors of the Santa Rosa took up the argument in Dinny's behalf with soldiers at the bottom of the gangplank—where the jurisdiction of the navy ends and dominion by the land forces begins.

It was the tenth time permission for Dinny to land had been refused by the army.

"I'm sorry about Dinny," said the executive officer. "He is the best mariner on the ship. He has made ten round trips to France—every one since the ship went into commission as a transport last March. And he never gets seasick, although he eats matches, cigarettes and all the pencil shavings we can supply. He is a native-born American and still the army won't let him land. The situation is getting serious now, for this is our last trip. The ship is to be turned over to the shipping board and something will have to be done about Dinny."

Suspicion Falls on Dinny.  
At this juncture of the conversation an officer of the port appeared at the door of the ex-officer.

"I'm instructed to locate 1,900 blue denim suits which were delivered to this ship and have them put ashore at once," he told Lieutenant Commander Hall.

"Haven't seen them, captain. Don't know where they are," said the executive officer. "Maybe Dinny—no, I don't think he'd go that far, though he'll eat anything."

"One thousand nine hundred blue jumpers are charged to the ship," the army captain was repeating, when he was interrupted by a clatter of boots and a weird apparition appeared in the doorway behind him. There was a goat with a pair of boxing gloves strapped over his horns.

"Dinny, have you been eating any blue denim suits?" the lieutenant commander demanded gravely.

"Aah—ah!" was all Dinny said, but he was looking wistfully, eloquently at the pencil sharpener above the desk of the lieutenant commander.

Just then the boat's mate raced along the gangway and tried to pull the intruding animal out of the door.

"He's been boxing again, sir—standing on his hind legs like he does and hitting with the gloves on. And, sir, I've located the blue denim suits, sir. They're packed between the captured cannon and tanks in the hold to keep that artillery from rolling around. Come along, Dinny."

"Aah—ah!" said Dinny.

## Patriotism.

What is patriotism? Is it a narrow affection for the spot where a man was born? Are the very clods where we tread entitled to this ardent preference because they are greener? No, sir; this is not the character of the virtue, and it scars blither for its object. It is thus we obey the laws of society, because they are the laws of virtue. In their authority we see, not the array of force and terror, but the venerable image of our country's honor. Every good citizen makes that honor his own, and cherishes it not only as precious, but as sacred.—Fisher Ames.

## Dramatic Arabian Streets.

The streets or sand storm of the Arabian desert is exceedingly breath-taking. It often digs pits two hundred feet deep, scattering the sand for miles around.

## MARKET SUFFERS HEAVY REVERSAL

Most of Substantial Advances During Last Two Months Wiped Out in Past Week

New York, Nov. 16.—The stock market this week suffered one of the heaviest reversals and liquidating movements since the close of the war. Technically, however, the situation is improved because it is realized that tightening of credit facilities and resultant reduction of bank loans will tend to check speculative excesses. The effect will be felt in all important trading centers throughout the country, it is held.

Much of the money now employed in the stock market represents actual purchases of securities for the strong boxes of investors. The strength of transportation shares is regarded by conservative interests as one of the most favorable aspects of the situation. Accumulation of these issues was taken to be a direct reflection of congressional legislation in process of completion.

During the week, speculative stocks broke 10 to 50 points. Losses in several conspicuous instances were far greater. Call money rose to 30 per cent, a record top figure since the panic of 1907, and the money market was swept clean of time funds. Figuring at the lowest quotation of the week's trading, most of the substantial advances accumulated in the bull movements of September and October were wiped out. Paper profits of millions of dollars evaporated.

An aggressive short interest assisted the drop, seeking the most vulnerable points. Pools and professionals were hit hard. The buying of rails, especially seasoned shares, did much to bring partial readjustment of the situation.

## Many Kinds of Capital.

Capital is merely something to work with. It is that something that sees that bills are paid. The idea is current that only a large bank account is capital. But we must never forget that brain, brawn and integrity are all capital. One man lives on the interest of his investments. The investments represent his capital. Another man lives on the income of his toil. His ability to earn is his capital. And some of the greatest enterprises known result from the combination of the two. The man of money puts cash into the venture and the man of ideas and industry puts his time and energy into it. Neither could do the task alone. Together they bring success. So you see character is capital because it works with money in attaining ends. And because it is what it is the bills are met and the working man is provided with the means of a livelihood.

## Lavender Smokers.

Long before tobacco was known or smoked, sweet lavender was a favorite smoking mixture. Pipes have been dug up in Roman settlements, adorned with base-reliefs picturing the lavender plant. From which it is surmised that the Romans smoked lavender, which, according to writers of the time, is said to produce a feeling "active, ardent, and vigorous."

## NEWS AT THE COUNTY SEAT.

**William Ross Burns Hand—Miss Barbara Johnson Breaks Leg.**

Cooperstown, Nov. 16. — While at work at the Nestle plant in this village Saturday, William Ross had his left hand severely burned by steam.

**Landscape Artist at Work.**

Landscape Artist Frederick de Puy-nor Townsend of this village will have charge of laying out plazas at the summer home of J. Ledlie Hees at Sacandaga. The property to be placed in the hands of Mr. Townsend consists of eleven acres on the mountain road in the rear of Heeswijk, the Hees summer home. The land purchased has been the property of Stewart Wilson, known to visitors at the summer resort for many years as "The Hermit."

**Miss Barbara Johnson Injured.**

Miss Barbara Johnson is a patient in Thanksgiving hospital as the result of falling last week from a window in her home on the second floor of her parents home, County Treasurer and Mrs. Burton G. Johnson. As she was

leaning out of the window she lost her balance, falling to the ground and breaking both bones of her left leg.

**Girl Scouts Entertained.**

Ten of the girl scouts enjoyed a progressive dinner Friday evening; the refreshments were served at the homes of Scouts Marjorie Bailey, Helen Johnson, Gertrude Hawley and Pauline Pitcher.

**MT. VISION NEWS NOTES.**

Sherman. — Mr. and Mrs. Bryant of Laurens visited their daughter, Mrs. Glenn Hall, Sunday. — Born, Nov. 8, to Mr. and Mrs. Glenn Couze, a daughter. — Mr. and Mrs. Levi Akerly of Oneonta, with their new auto, recently visited her sister, Mrs. Fay, at Schenectady, taking with them her parents, Mr. and Mrs. Arthur Hall, and sister, Miss Ava Hall, of Mt. Vision.

## DELAWARE COUNTY NEWS

**DEBIL CHURCH EXTENDS CALL.**

Rev. Donald W. Morse Asked to Become St. John's New Rector.

Delhi, Nov. 16. — St. John's Episcopal church of this village has extended a unanimous call to Rev. Donald W. Morse of New York to become its rector. The call was heartily approved by Bishop Nelson, who was here the past week to confirm a class. Rev. Morse has not yet been heard from with reference to his acceptance of the call.

**Rev. Seeley Leaves.**

Rev. Dr. and Mrs. Frank H. Seeley left Thursday for Brandon, Vt., where they will spend some time with their daughter, Mrs. Dr. Estabrook.

**County Judge McNaught Honored.**

Because of the congested calendar in Bronx county, and at the request of Hon. Louis D. Gibbs of that county, Andrew J. McNaught, Delaware's county judge, will preside at a two weeks' term in the metropolitan court, beginning tomorrow. Pursuant to the

provisions of the code, District Attorney Hewitt will hold surrogate's court in Delhi tomorrow and Monday, Nov. 24.

**HEARD IN HOBART.**

Hobart, Nov. 16. — Miss Gladys Dixon of Roxbury is a guest of her grandparents, Mr. and Mrs. David Dixon. — Mr. and Mrs. Elmer Hurlbert of Jefferson are visiting their daughter, Mrs. Ralph Bogart. — Charles Pangborn and daughter, Alice, spent Saturday in Hobart. — Mrs. C. C. Gould gave two card parties the past week, one on Thursday afternoon and the other on Saturday. About 25 were entertained each day and spent most enjoyable afternoons. Light refreshments were served.

**Supper at West Davenport.**

West Davenport, Nov. 16. — The Methodist Episcopal society of West Davenport holds a 25 cent supper and social at the home of Mr. and Mrs. L. V. Metcalf on the evening of November 21. All are cordially invited to attend.

**OTSEGO FARMERS' INSTITUTES.**

**FOOT DEMONSTRATION NOW IN PROGRESS.**

Comfort for Bothersome Feet Expounded This Week.

This is National Demonstration week in about thirty thousand shoe stores throughout the United States and Canada. It is a week devoted to the demonstration of mechanical methods of relieving foot troubles and correcting their underlying causes, and these demonstrations are being given by the graduate Practipedists (foot experts) employed by those stores.

In this city the Hurd Boot shop has made especially large and thorough preparation for this educational event. Its Practipedist will examine the feet of all who come to him without charge and he will not only point out the causes of the troubles, but will demonstrate how comfort is obtainable.

The Practipedists claim that about nine out of ten people are in need of foot correction appliances to make their feet fully comfortable and efficient. Their object is to educate the public in this important matter. Advise.

**Notice.**

The annual meeting of the Davenport Center branch of the Dairywomen's league will be held at Butts' hotel, Davenport Center, November 18, at 1 p. m. for the purpose of electing officers and a delegate to the annual meeting to be held in Jersey City on December 9. By order of secretary, F. J. Yuik.

**KIDNAPED BRIDE-ELECT**

lay "Lochinvar" From West Carried Off Former Sweetheart.

After being refused a marriage license because he lacked seven days of being 21 years old, and then stalling until this period had elapsed, Marion G. Stewart, of Muncie, Ind., as been cheated out of his bride-to-be, Miss Marian J. Clout, of Wilmington, Del.

The wedding was to have occurred the day after Stewart had reached his majority. Preparations had been made for an elaborate ceremony, but to make some last-minute purchases Miss Clout left her home. On her way through one of the stores she met a former lover, Joseph Barney, of Douglas, Ariz., who, with Western breeziness, and what the girl's parents assert is some hypnotic influence succeeded in inducing the bride-elect to go with him to Elkhart, Md., where they were married.

Following the marriage, the western visitor departed for his home to make reparations to receive his bride, while Mrs. Barney returned to the home of her mother. Meanwhile, the parents say they will attempt to have the marriage annulled, so that their daughter can marry Stewart.

**Only One.**

A little girl had a twin brother and sister. Now, she was used to the cat having kittens and only one of the litter family being kept. So when her father brought the twins down to show her she gazed at them earnestly in a small space of time, then said, "Daddy, I think we'd better keep that one!" Pointing, as she thought, to the prettier one!

**Evil Always to Be Fought.**

There can be no compromise with evil. It never is right to license wrong, whatever golden returns it may offer; however difficult it may be to get rid of it. In our social life and in our personal life, wherever evil shows its face and there must be battle, not compromise.—Exchange.

THE INHERITANCE TAX.

The high record mark for transfer (inheritance) tax receipts was attained during the last four and one-half months. State controller Travis has announced. Since July 1, over \$11,142,024 has been collected against \$4,740,024 for the corresponding period last year; or \$13,339,582 for the entire twelve months in 1918-1919. According to the controller's estimate, this year's total will exceed \$18,000,000 before June 30, next.

The controller's conclusion is based upon last year's monthly average, expected to continue during the remaining seven and one-half months. So far this year the average has exceeded such amount, more than \$4,000,000 having been received in September. Since November 1, \$2,507,398 was paid in. While it cannot be expected that this record will continue, it is apparent that the total taxes for the remaining seven and one-half months will greatly exceed any former by at least \$7,000,000.

Each month considerable additional work is necessary to reach a large number of delinquent estates, where the period of eighteen months allowed, has expired. Most of such cases affect estates liable to the payment of a small tax, where the delay in payment is due to failure to report to the state. Many, however, prove to be "exempt estates," where the amount allowed exceeds the total of the bequest, when no tax is necessary. Nevertheless, approximately \$50,000 is recovered annually from this source.

## THE BEST OF THE RAILWAYS.

The best of the principal railways of the Eastern United States, so far as promptness in passenger service is concerned, is the Delaware & Hudson. During the month of October, when 2,971 passenger trains were operated, 97 per cent. of them reached their terminals on time. The only other railroad in the entire east which did as well was the Lehigh & New England, which ran only 81 trains and whose record was half a per cent. better. When compared with the larger systems, those which had 1,000 trains or better during the month, it surpasses them all.

As locally of interest it may be noted that the Erie had 96.9 per cent. of its passenger trains on time, the D. & W., 92.2; the Ulster & Delaware 91.7; the O. & W., 88.85, and the Central 89.4. It may also be noted as another feature of D. & H. passenger service to be recalled, the road still maintains its high mark of safety, not a serious accident of any kind occurring to a passenger train.

## HIGHWAY PROGRAM FOR 1920.

State Roads to be Constructed During Next Twelve Months.

A bulletin issued Saturday by the State Highway department states that plans have been completed for the construction of 72½ miles of state highway in the various counties during the spring and summer of 1920. These highways, as listed, will be advertised for contracts during the next four months, in order that work may begin early in May, the purpose being to have a majority of them completed during one working season. By this plan of winter letting, contractors will be able to assemble plant and material and make financial and other preliminary arrangements in advance of actual operations.

In Otsego county the only work to be advertised is what is known as the Sidney gap, which is a grade crossing elimination, the work to be of concrete or bituminous macadam; and the Cherry Valley-Sharon Springs road, a joint undertaking in the counties of Schoharie and Otsego. The road is 7.33 miles in length and the construction is to be of concrete.

In Delaware county the roads listed are Andes-Margaretville, 10½ miles concrete; Hancock-Long Eddy, 6 miles bituminous macadam; and Bloomville-Hobart, 3 miles concrete. In Chenango the roads advertised will be Afton-Coventry, part 2, 2.95 miles, and Sherburne-Columbus, 7 miles, both of bituminous macadam. Schoharie, in addition to the Cherry Valley-Sharon Springs, will build Sharon-Bloomville, 10½ miles; Franklinton-Middleburg, 5.60 miles and Cobleskill-Sharon Springs, part 2, 5.22 miles. The latter is a continuation of the road from Cherry Valley.

The above list is subject to change, and both length of highways and type of pavement may be modified.

## Reception at High School.

The annual reception of the Senior class at the Oneonta High school gymnasium Saturday evening was largely attended by students, faculty, alumni and guests. The walls were tastefully decorated with evergreen boughs against which the words, Senior Class stood out in large, yellow letters. Varicolored paper decorated the ceiling and the source of illumination.

The evening was pleasantly spent in dancing with large bowls of excellent punch at either end of the floor for those who desire it. Music was furnished by the Jesters. An excellent time was had by all present.

## HOBSON SPEAKS IN ONEONTA

Hero of Maritime Addressed Large Audience at First Presbyterian Church—Urges Extension of Prohibition to Entire World.

Captain Raymond Pearson Hobson, hero of the Maritime in the Spanish-American war and since a distinguished in congress and the country over, for his fearless attitude on occasions calling for moral courage, was in Oneonta yesterday afternoon and addressed a large audience on the issue of prohibition. The meeting was announced for Municipal hall, but long before the hour of two the hall and adjoining rooms were crowded and it was evident that many would not be able to secure admission. Accordingly the generous offer of the authorities of the First Presbyterian society was accepted, and the audience adjourned to the church, which was speedily filled, practically to seating capacity.

Captain Hobson, who had spoken in Franklin in the morning, was escorted from the Oneonta hotel by the Company G band. At the church the exercises began with singing by a male chorus, followed by prayer by Rev. P. M. Luther, and a second musical number, after which Mayor Cepelie, referring at first briefly to the history of the prohibition movement in Oneonta, and to its satisfactory outcome, introduced the speaker of the day.

Capt. Hobson, after referring briefly to his former visit to Oneonta and to the substantial evidences of growth and prosperity which he had observed, proceeded at once to the discussion of the subject of world-wide prohibition. "The war," he said, "has shaken the earth to its foundations. Old systems have toppled to their fall. For more than a generation the human race will have the gigantic task of reconstructing its institutions. It is estimated that more than 20,000,000 human beings have perished as a result of the war. No other species, whether in the plant kingdom or the animal kingdom undertake systematically to kill itself. Manifestly the human race is sick, out of harmony with its environment and the laws of nature, suffering from degeneracy from alcohol, the specific for degeneracy. Therefore, the first step in a scientific program of reconstruction is to remove the cause of humanity's disease.

"Degeneracy cannot support the institutions of civilization. It is vain to hope for universal democracy in a degenerate world. It is vain to hope for enduring peace while the world is brutalized by drink. It is vain to hope for brotherly co-operation between the nations and for the wonderful civilization that would follow unless the world becomes sober.

"Humanity must demand the establishing of the principle that henceforward men shall not use the channels of commerce to exploit their fellowmen through barter in destructive commodities like opium and beverage alcohol. The peace treaty itself should provide for the immediate application of this principle by proclaiming prohibition for the continent of Africa, the continent of Asia, and for all native tribes and all peoples not self-governing.

"America is now the most potential factor in the world's councils, having earned the confidence of all nations. We have adopted a definite policy of national prohibition as a part of our organic law. Therefore it naturally devolves upon America to take the leadership in making prohibition world-wide."

At the conclusion of his remarks Captain Hobson urged those present to sign cards pledging a specified amount monthly for the work of the Anti-Saloon league. The cards were distributed and afterwards collected, a considerable number of pledges being secured. As always the remarks of Captain Hobson were marked by full command of his theme and convincing eloquence.

## How to Make a Beautiful Lawn

A 500 Pound Tractor Better Than Horses.

[National Crop Improvement Service.]

"THE velvet lawns of England are the Briton's pride, but Americans must remember if we would have such lawns that our foreign cousins have several hundred years the start of us and it takes time to make a real lawn. Any grounds keeper will tell you that no lawn can be built without unremitting labor, and intelligent labor is difficult to obtain, so therefore if one man can do the work of two we will have more and better lawns.

"The best turf grasses, according to Piper & Oakley, are the Creeping Bent, which is a very fine grass for putting greens in the North, although the Velvet Bent is sometimes preferred. The Rhode Island Bent is slightly coarser and darker, and Red Fescue is sometimes a favorite.

"The Kentucky blue grass if kept closely cropped is sometimes used for greens, but it is more suitable for the fairway. Red top and Canadian blue grass are better for general lawn expanse and fairways of golf courses.

"Grass should not be cut too short and therefore must, in the growing seasons, be cut more frequently," says Mr. John F. Peters, a Chicago tractor expert. "It has been the study of engineers to devise some way to mow a lawn rapidly and inexpensively. In spring and fall when the ground is wet and soggy the horse mowers cannot well be used because the imprint of the horses' feet leaves the ground hummocky. If you have

ever noticed a bog you will realize what the tramping of cattle has done in swamp land.

"This is true of the surface of our lawns in parks, cemeteries, golf courses and public grounds, and it is almost impossible without the use of a heavy roller, which is so much extra work, to keep the ground smooth and level. The ordinary tractor is too heavy for the work and hence not economical.

"The superintendent of the park board of Minneapolis has made a test with a small Beeman garden tractor equipped with three 30-inch mowers and a team equipped with mowers of similar width. The results were that the tractor cut in 3½ hours what it took the team six hours to cut. He estimates that the horse outfit cost him \$9 a day of eight hours while the tractor cost for the same time \$4.35. He says also that he can work his tractor 16 hours a day if he chooses, and besides the expense of maintaining the horses is just about as great each day they are not working, while the expense of the tractor stops.

"If one skillful man could be so equipped with power mowers, he could take entire charge of a golf course and keep the fairway in prime condition.

"It is hardly fair to penalize amateur players by having long grass in which they lose their balls. I play for no cups and lose more balls than anybody. Let's cut the grass and keep it cut."

## COMMENTS OF THE PRESS

The Centralia Awakening.

The first effect of the I. W. W. massacre in Centralia, Wash., is a general movement to rid the Pacific coast of these dangerous radicals and their like. Not only in Centralia and Seattle, but as far south as Oakland, Cal., the indignation of the people is taking this form. It might have been expected. As a blow against "organized society," the enemy against which the I. W. W. directs these blows, it was unequally feeble; as a blow against the I. W. W. itself it was stunning in its completeness. It has probably done more than anything else to arouse the American people to the existence, not of a menace to their government, for the government is too strong for that, but of human miscreants from whom no life is safe, however humble.—[New York Times.

"Pussyfoot" Johnson Scores.

The London medical students who on Thursday dragged "Pussyfoot" Johnson, the temperance strategist, from a prohibition meeting and bore him through the streets on a plank, with opprobrious remarks and banners of protest against all promoters of thirst, must have wondered next day who had the better of it. We can tell them. It was not the students.

A man who can talk as he did in a hospital after such an experience as Mr. Johnson's is a good sport; and in English a good sport with ability, experience and powerful backing can go far. The British Beerage may well feel nervous as it contemplates the philosophical "Pussyfoot" on his cheerful bed of pain. That kind of opponent is always to be feared.—[New York World.

The Federal Amendment.

The federal prohibition amendment will go into effect in January regardless of Ohio, according to the officials of the department of justice. Until the number of states failing to ratify falls below 26, the attorney-general will not concern himself with any changes in the identity of the ratifying states.—[Springfield Republican.

Hurry Up the Decision.

The sooner the United States supreme court passes upon the Volstead prohibition enforcement act the quicker a real start will be straightened out. The edges of the lower federal courts are rubbing against each other. Justice Brand of New York now decides exactly contrary to the

decision of Judge Brown of Rhode Island regarding the federal enforcement law. Judge Brown's reasoning was novel, being based on a new interpretation of the 18th amendment, and Judge Hand apparently is not impressed with it.—[Springfield Republican.

Not the Bold Face Type, However.

"I see that printer who divorced his wife has married again."

"Well, I hope he selected a different type."—[Herald Times-Union.

It Has in New York.

Jamaica ginger for beverage uses has been put under a ban in Massachusetts. Its uses as a medicinal preparation will no doubt be greatly increased.—[New York World.

## TWO DEGREES OF CHIVALRY

### Odd Fellows of Oneonta Complete Plans for Tomorrow Night.

The following is the outline program of the exercises to be held this afternoon and evening in connection with the degrees of Chivalry by Canton David Wilber upon a class of several candidates from the Delhi canton:

5:30 p. m.—Reception to visiting officers and Odd Fellows at lodge rooms in Odd Fellows' hall on Chestnut street.

6:30—Banquet at lodge rooms.

7:30—Parade to armory and band concert by Company G band.

8:00 Grand decoration of Chivalry and decoration of Chivalry.

Following the conferring of the degrees there will be a grand military ball, under the auspices of Company G band and Wilber canton. The band has been spending much time and sparing no pains to make its concert of exceptional worth. If both the ceremony of decoration of Chivalry and the ball were omitted, still the concert would be worth more than the half dollar which is asked for the entire program. However, all are invited and those who do not dance may gain admission for 25 cents.

Among the officers of the order who arrived in Oneonta yesterday are General Dickson of Buffalo and three members of his staff—General Weber of Albany, and Col. Lauder of Binghamton and Christian of Buffalo. General W. C. Gurney of Binghamton also arrived last evening, accompanied by Col. Potter and his staff. The degree of Chivalry will be conferred by General Dickson and the Grand degree by General Gurney.

Owing to unforeseen circumstances Lady Carson of Buffalo is unable to be present and take the solo work in the decoration of Chivalry. The canton, however, considers itself extremely fortunate in securing the consent of Miss Annie Waters of this city, who will take the place of Lady Carson.

## Organizing Auxiliary to Delhi Canton.

In connection with the conferring of the degrees of Chivalry in Oneonta this evening, Anna E. Wilber auxiliary to David Wilber canton, will at 2:30 this afternoon organize an auxiliary to the Delhi canton. It is earnestly requested that all lady militants and chevaliers will be present to assist.

Following the reception at 5:30 o'clock the Anna E. Wilber auxiliary will give a luncheon at 5:30 in the Odd Fellows' temple to all visiting delegates and members.

## Gasoline.

We are quite surprised to see gasoline take a two cent decline in one day, when the wholesale prices are the same as they have been for over a year, but a careful consideration may solve the problem. It may be that the heat of the season is now gone and winter is at hand, and many of the users of gas may want their cars overhauled, thus the repaving can be done at good reduction also, as the time will not be taken up so much in pumping gas. But for my part I do not see how this big drop should come in the garages of Dibble, Helmes and Rex, and no decline in oils and repairs, why not? I see that Robinson has not lowered his price, he is still selling at the old price used for over a year, 26 cents per gallon, where a ticket is used. For only a 50 gallon amount this ticket costs \$13.00, but if any one is using a quantity of at least 500 gallons in a short time or wants to use one of our 500 gallon tickets they can buy it at 25 1/2 cents per gallon, but as the three garages have really come down to our 50 gallon ticket price I will give every one the 50 gallon price without buying a ticket and still hold the 500 gallon ticket good to any one at 25 1/2 cents per gallon.

They are for sale at East End, South Side and the West End plants. I have no garage to lower my prices on, so all I can do is to give you the best winter oil, 15 below zero test at 60 cents per gallon. This oil is positively the best winter oil money can buy, try it. I guarantee our oils and gasoline to be fully up to any sold in Oneonta, no matter how much my competition says naphtha or cheap gas. We are aware that we are selling more gas and oil than any other plant and wish to thank our trade and friends for your patronage. I trust that you have been paid well in service and we will do our best at all times to be on the job with the best goods and service we can find or give. I feel sincerely that we can please everyone who will try any and all of our goods. I do not know of one customer that we have lost since we came here, and I make good all goods that I sell to be just what I claim for them. When I say Standard gas, that means just the same as any one is getting off the truck the same when I say Texaco. I have special brands of oils, which I have used for over eight years, that gives the machinery perfect lubrication and wear as good as any oils known to science, and on accessories I guarantee every one, at less money than any one is selling the same grades. I thank you for your time in reading the above.

Yours truly,

D. E. Robinson

## MR. FAIRCHILD SAILS FOR HOME

### Is Recovering From Illness—Interesting Note in Paris-New York Herald.

Hon. George W. Fairchild of this city, who for the past two months had been in Europe on business for the Computing-Tabulating-Recording company, as chairman of its board of directors, sailed Friday from London via the steamship Adriatic for New York, where he will probably land on the 21st. His many friends who have regretted to learn that he was ill much of the time during his sojourn in Europe, will rejoice to know that his condition is sufficiently improved for him to undertake the voyage, and they will hope that rest at home will result in his early, complete recovery.

A recent issue of the Europe (Paris) edition of the New York Herald says: "George W. Fairchild of Oneonta, N. Y., who retired recently from membership in the United States house of representatives, after serving fourteen years, which kept him confined to his room at the Grand hotel for nearly a fortnight. In conversation with a Herald correspondent yesterday, Mr. Fairchild predicted the ratification of the peace treaty by the senate. 'Though I am a stand-pat Republican,' he said, 'I think the treaty should be ratified without further delay, if for no other reason than that the business situation demands an early settlement.'"

## MARGARET ANGLIN COMING.

Talented Actress to Appear at Oneonta Theatre Thursday Night.

Those who were fortunate enough to enjoy Margaret Anglin's delightful work last season in the charming light comedy, "Billeted," will rejoice to learn that she is to return to the field of her greatest achievement, the emotional drama, this season. Miss Anglin is announced to appear at the Oneonta theatre Thursday night, Nov. 20th.

The new medium in which she will display her versatility is called "The Woman of Bronze" and is the work of two French authors of great reputation, Henry Kistmaecker and Eugene Delard. They have provided a splendid role for Miss Anglin, one which is admirably suited to the expression of the best phase of her many-sided art. The play is in three acts and the entire production will bear the stamp of Miss Anglin's individuality for it has been staged under her personal direction. Miss Anglin's predilection for good acting ensures a good cast for "The Woman of Bronze." Among those whom she has selected to assist her are Fred Eric, Edna Walton, Harriet Sterling, Bennett Southard, Nina Morris, Langdon Bruce, Ralph Kemmet and Gerald Hamer. The seat sale commences Wednesday, November 19th at 10 a. m. Mail orders now.

## ELKS TO HERD IN BINGHAMTON

ONEONTA LODGE DEPARTS TUESDAY MORNING TO PARTICIPATE.

Endicott-Johnson Band of Thirty Pieces Engaged as Escort—Officers of Local Lodge to Confer Degrees on Class of 300.

Oneonta lodge of Elks is to be well represented at the monster gathering of the antlered tribe in Binghamton on Tuesday, on which occasion the hosts are planning to entertain at least 3,000 visitors, the program for which occasion is elaborate and attractive. Oneonta lodge will leave on the 10:35 a. m. train and all who can are requested to go on that train to help swell the delegation. Headquarters will be Hotel Bennett and those who may go on other trains or by motor cars are requested to be at Hotel Bennett at 6 o'clock sharp to participate in the big parade at that hour. Arrangements have been made with the Endicott-Johnson band of 30 pieces to act as escort for the Oneonta lodge and will meet together with the recently organized Elks band of Binghamton the Oneontans at the station and escort them to their headquarters.

Oneonta lodge has been signally honored by a request from Binghamton lodge to confer the degrees on this occasion, the excellent work at the recent state convention at Albany having attracted state-wide attention. Exalted Ruler Edward M. Ronan and his assistants in the degree work have in mind exelling all previous work, and with the spacious auditorium of the handsome Kalurah temple as a setting will be able to do so and in a most impressive manner. The class of initiates numbers over 300 and the task will be no easy one.

It will be one of the most notable gatherings of Elks ever held in Southern New York. There will be special excursion trains from Scranton, Wilkes-Barre and Elmira. The state president and some 32 district deputies and past exalted rulers have accepted invitations to attend. There are many entertaining features of the occasion and it is hoped that every member of Oneonta lodge who can possibly do so will plan to accompany the officers and make the delegation from this city creditable.

## D. & H. FIREMAN KILLED

Leonard McDonald, a D. & H. fireman, residing at Binghamton, was killed and Engineer Charles Dietzel and Trainman Edward T. McGrath of this city were injured in a collision of freight trains at Schoharie Junction at about 12:30 Saturday morning; three engines being badly damaged and five cars and their contents strewn over the tracks.

The accident happened at the cross over at Schoharie Junction, when a northbound freight on the cross over was struck by a southbound freight. It is unofficially stated that the crew of the southbound freight ran past a signal set against them and crashed into the northbound train. The wreck is said to have been one of the worst suffered on this division.

The northbound freight was in charge of Conductor Charles W. Boswell. The trains came together with such force that Fireman Leonard W. McDonald of the southbound train was pinned between the tender and the cab of his engine. He was so badly crushed that he died within a half hour after the accident. The body was taken to his home in Binghamton.

Two men injured from this city, Engineer Dietzel of 5 Park avenue, and Trainman Edward T. McGrath, received slight injuries. Engineer Dietzel was bruised about the body and Trainman McGrath received a badly sprained ankle. They were given attention by Dr. Bentley at Central Bridge and later brought to this city, where their injuries were dressed at the hospital and the injured men taken to their homes.

Both tracks were blocked for about six hours before the wrecking crews could clear away the wreckage.

### Engineer Dead in Schenectady.

A. B. Duffee, a well-known D. & H. engineer, died at Ellis hospital at Schenectady yesterday morning at 3:30 o'clock. Mr. Duffee is well-known in this city having lived here several years ago, and having been in the employ of the company for about 35 years. No definite information is at hand regarding his death other than that given, further information, however, will probably be at hand for tomorrow's paper.

## DEATH.

Mrs. Clifford R. Teed.

Leta Belle Brownell, wife of Clifford R. Teed of 13 Columbia street, died at 7:50 o'clock Sunday morning after only 24 hours' illness of acute indigestion. The funeral services will be held at 2:30 o'clock Tuesday afternoon at the home of her father-in-law, O. M. Teed, 8 Central avenue. Her pastor, Rev. Dr. C. S. Pennington, will officiate, and interment will be in the family plot at Glenwood.

Mrs. Teed was born December 29, 1891, at Davenport Center, her parents being George P. and Anna (Burrell) Brownell. When she was about six years of age the family moved to Oneonta, which has ever since been her home. She is survived by her husband, to whom she was married May 5, 1907, and by one son, Stewart, also by her mother, Mrs. Anna Brownell; by two brothers, Fred and Charles Brownell; and by one sister, Miss Caroline Brownell, all of this city.

Mrs. Teed was a member from early life of the Free Baptist church of this city, and also was a member of the Protected Home circle and of the Lady Maccabees. She was a woman greatly devoted to her home life and the welfare of her family. She was a good friend and neighbor, and was helpful to all in time of need. A loving wife and mother, sister and daughter, her loss will deeply be felt in the immediate family; while in the wider circle of her acquaintance all will deeply sympathize with those so suddenly bereaved.

## MARRIAGES.

Yager-McCloskey.

Miss Margaret McCloskey of 5 Hill place, formerly of Schenectady, and Glen H. Yager of Oneonta were united in marriage at 3:15 Saturday afternoon at St. Mary's Catholic church, by Rev. Father Charles McCaffrey. The bride wore a dark blue chartruse gown and large black picture hat.

They were attended by the mother of the groom, Mrs. Maud Yager, and William Cator. The newlyweds left on the 2:45 train for points of interest. On their return they will reside for the present at 5 Hill place.

### Married at Methodist Parsonage.

# So Human

—it amazed all Oneonta

SOME of your friends must have been in the huge audience which heard Leola Lucey in her Tone-Test recital at the Oneonta Theatre. Ask these people about it. This is the astonishing discovery they made:

The keenest musical ear can not distinguish any difference between the voice of the living artist and the RE - CREATION of that voice by the New Edison.

And does it not amaze you, too, that Mr. Edison has succeeded in producing an instrument that captures every subtle sweetness of the human voice—that gives you all the car can give you of the art of the world's great artists. No other phonograph dares to make this direct comparison.

# WROST FOREST FIRES IN YEARS

est Rangers Fail to Conquer Timber Land Flames.

## NY THRILLING ESCAPES

lers Endangered by Sweep of flames—Record Loss in Missoula District—J. W. W. Makes Trouble for Fire-Fighters.

Washington, D. C.—Stirring reports coming from forest rangers fight fire in the Northwest. At headquarters here the situation is said to be most critical in years. The summer of 1919 may have been the timber destroyed since June. As are still raging, the loss may be more than in that season.

There have been many thrilling escapes of settlers from the sweep of flames; there have been a number of rescues. Loss of life has been less than usual in forest fires. The outstanding experience of government fire fighters occurred in Idaho. F. C. Wilfong, who had been dead along Crooked creek was rescued with his crew of three men at a point where three fires met. Get out alive seemed impossible.

Thirteen horses were taken to a bunch of hills in the hope that they might be saved, while the men continued to fight for their lives.

At camp, provisions and clothes burned. Wilfong and his men jumped into Selway river, and covering their heads with wet rags, pulled through. They found their horses, but one, alive, but the saddles had been burned off their backs.

Devastation in Missoula District. Most damage is being done in Idaho western Montana. It is called the oula district. It is the best part of the country's timber remaining from was once thought were inexhaustible preserves.

Is here the burnings ten years ago most damage. The areas devastated nearly five millions of acres. More than six billion board feet of lumber were destroyed and the big tree was \$14,889,724 aside from the of \$9,000,000 worth of timber not enough to cut.

Is loss may be trebled by the fires summer. They have been coming. Thirty of them have each consumed everything but the rocks on of one thousand acres or more the aggregate is already several millions, with no break in the drought.

June and with several of the dangerous months to come. It is in seriousness to lack of rain after from dried-up streams is the city of labor. Fire fighters cannot find in sufficient numbers in such emergency in the forest region. Eminent offices have had to be opened at Great Falls, Billings, Anaconda, and Spokane.

Trouble From J. W. W. The latter city, the J. W. W. gives aid to the fire rangers seeking help. Care is exercised to prevent any help of this organization from getting into the forces sent to the forest line. There they can give an immense amount of trouble and frustrate to put out a blaze. Their favorite way is to create discontent among the crews as to pay and food induce them to quit or do as little as possible while the trees burn.

spite of the care taken, some of the plotters have got into crews are doing mischief. Some bosses been reporting that their men "laying down on their jobs" and been told to discharge them immediately. This is done under guard, formerly only to the edge of civilization. This can be done only in case man has worked out his transportation and cost of keep and few fall to this before discovery. In that the armed guard must take him to the city from whence he came.

ing can be done to him, as he has his transportation and sustenance must be taken back with expense, according to contract. Now and then an overzealous J. W. gets busy too soon in the woods. If he has not earned his expenses, he is arrested for defrauding the government.

so thousand gas masks have been by the war department to the at service for trial by fire fighters.

hile the fire situation in Oregon Washington is not so serious as Montana and Idaho, all the crews are fully occupied.

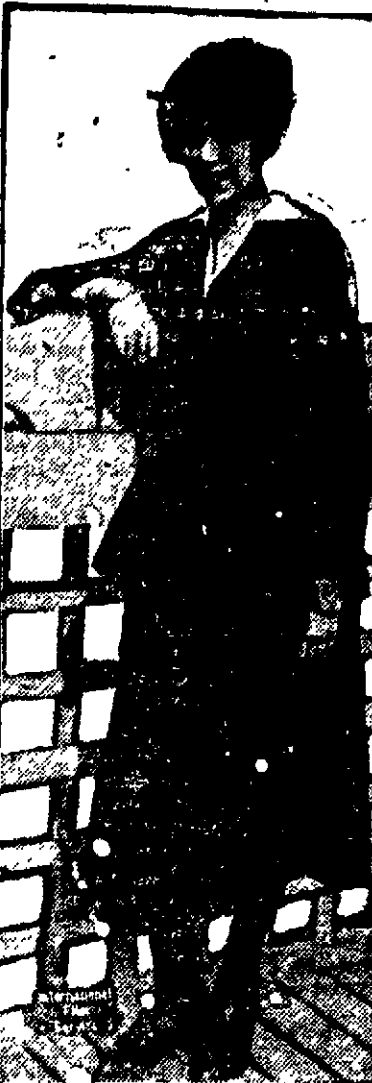

HERMIT'S ANNUAL BATH is in a Dilapidated Shack and Police Gave It to Him.

John May, aged hermit, who lives in a dilapidated shack in the river town at Dallas, Tex., has been on his annual haircut, shave and bath. The police did the tonsorial act and administered the scrubbing. Look several of the cops to do it. John is a strong man and put up a determined struggle throughout the performance. He went to the police station with grizzly hair and beard which reached almost to his waist. He came away with a smooth face and head and smelling like high-class toilet water.

John makes his living by mending shoes and his customers did not notice him when he came around a next day.

"It's not my fault, lady," said John one of the women failed to recognize him. "Then looking cops are at it."

## BELGIAN GIRL IS HEROINE

Mlle. Marie Louise Gombier, a twenty-one-year-old Belgian girl, who arrived in New York from France en route to Los Angeles to make her home. In 1914 Mlle. Gombier was living in a convent at Bresges, Belgium. When the Germans arrived the girl escaped and made her way to her father's home near Brussels. With the fall of the Belgian capital the Germans occupied the Gombier home and installed a wireless plant. Mlle. Marie tried to destroy the plant, was caught and sentenced to death. The sentence was later commuted to imprisonment. After five weeks in prison the girl escaped and made her way to the Canadian lines near Ypres. Here she served as a nurse, winning the Croix de Guerre with two bars for bravery.

Mlle. Gombier will make her home in Los Angeles with Mrs. L. Dowdy, an American Red Cross nurse she met in France.

## HEN HELPS LIQUOR SEARCH

Scratched Up a Bottle of Whisky at Bangor, Me., While Deputy Lutes Looked on.

Bangor, Me.—Other towns have hens that lay big eggs, but Bangor has a few biddies that, it would seem, lay quart bottles of whisky. Sheriff Fernandez and his deputies are trying to find out who owns these remarkable hens, but thus far all they know is that the hen has its habitat in a yard in Pine street. Deputies King and Noddin went up there browsing around for the staff and stood admiring the handsome biddies scratching in the straw of their enclosure. There seemed to be an unusually liberal supply of straw. Rum hounds notice these little things. One hen was particularly active and energetic in her scratching, and presently she uncovered, right where one would look for eggs, a quart bottle of whisky worth in these dusty days at least \$10. Then the deputies took a turn at scratching in the straw and uncovered 24 more bottles. They are whistling a new tune around the county jail now. They call it "Whisky in the Straw."

Fountain Pen Reservoir. The reservoir of a new fountain pen holds as much as an ordinary small bottle of ink, and is shaped to fit the hand comfortably.

Generally Does. The trouble with the fellow who is so disagreeable that he "says it to your face" is that he is likely to boast about it afterward.

Not Always. "Talk is cheap." "Don't you believe it. I had to pay ten dollars and costs for telling a policeman what I thought of him."

"ONLY ONE THING BREAKS MY COLD!"

"That's Dr. King's New Discovery for fifty years a cold-breaker"

NOTHING but sustained quality and unflinching effectiveness can arouse such enthusiasm. Nothing but sure relief from stubborn colds and onrushes new ones, gripe, throat-tearing coughs, and croup could have made Dr. King's New Discovery the nationally popular and standard remedy it is today. Fifty years old and always reliable. Good for the whole family. A bottle in the medicine cabinet means a short-lived cold or cough. 60c and \$1.20. All druggists.

Regular Bowels Is Health Bowels that move spasmodically—free one day and stubborn the next—should be healthfully regulated by Dr. King's New Life Pills. In this way you keep the impurities of waste matter from circulating through the system by cleaning the bowels thoroughly and promoting the proper flow of bile.

Mild, comfortable, yet always reliable, Dr. King's New Life Pills work with precision without the constipation results of violent purgatives. 25c. as usual at all druggists.

## BRAZIL IS PICKING UP

Now Exports Food She Formerly Imported Herself.

Freight Trade for First Half of 1919 Shows Balance in Her Favor.

Rio de Janeiro.—The foreign trade of Brazil during the first half of 1919 is regarded as very encouraging. Increased exportation of some of Brazil's staple commodities, such as coffee, rubber, cacao, chilled beef, hides, oil bearing fruits, etc., as well as the high prices which these articles have commanded, leaves a very respectable trade balance. That Brazil has rapidly forged ahead commercially during the years of the war is generally conceded. The country's agricultural possibilities are as yet practically unexploited, and the war acted as a stimulus toward ascertaining the wide range of her productivity.

Brazil has been able to export to Europe foodstuffs which a few years ago she was not able to supply to herself. In the same way animal husbandry is making strides which point to making meat products one of the country's chief exports. While Brazil has always been a cattle producing country, it is only during the last three or four years that she has been looked upon as a world supplier. More recently several large modern packing houses have been constructed or projected. These are financed principally by American packing interests.

In the last year the federal government, through the agricultural department, has devoted considerable attention to the importation and purchase of animals of pure blood. It is proposed to carry on an extensive educational campaign among the live stock breeders of Brazil to improve the standard of cattle. For this purpose the government intends to make liberal money appropriations.

How Starfish Eat. All the starfish fasten themselves to the matter they wish to devour, turn their stomachs inside out, and engulf their prey. It doesn't sound pretty, but it's effective, and that's all the starfish care about.

Root of Generosity. He who gives what he would as readily throw away gives without generosity; for the essence of generosity is in self-sacrifice.—Henry Taylor.

## BURGLARS TAKE HAM NOW

High Cost of Living Has Made Them Change Loot.

High cost of living has changed the methods of thieves and burglars at Dallas, Tex. Instead of stealing jewelry and silverware, burglars are stealing shoes, hams, eggs and bread. During the past week fifty persons whose houses have been burglarized have reported the loss of shoes and foodstuffs, but found their valuables intact.

"With shoes selling at from \$12 to \$30 and a ham worth \$5, it is no wonder that thieves prefer these to a place of silverware," say the police. "Then the burglar can sell the shoes without suspicion. He gets \$5 per pair for them, and if he happens to grab eight or ten pairs while folks are at the movies he has done a good day's work. You can't identify shoes after a second-hand dealer has them five minutes. Folks will have to put their extra shoes in the safety vaults of the bank if they expect to keep them these days."

## STEAL ITALY'S CHURCH BELLS

Eight Thousand Are Taken by Germans, Causing a Big Famine in Venetian Provinces.

Venice.—There is a bell famine in the Venetian provinces. Nearly 8,000 church bells, so useful in the regulation of the country and village life, were carried off by the enemy.

They weighed in all 3,000 tons. Only 20 have been recovered. The Italian government promises to partly replace the missing bells by giving churches bronze cannon taken from the enemy, but so far only a few promised guns have arrived.

Nearly a hundred are known to be in a military store in Bologna, but all efforts to cut red tape and get them back to their proper churches have been vain. Thousands of peasants have to guess when it is time for mass.

Brothers Meet After Years. Dennison, Iowa.—After being separated 35 years, N. H. ## TRAVELS TWO MILLION MILES

Massachusetts Drummer for Fifty-Three Years Claims World's Long-Distance Record.

Worcester, Mass.—Edmund R. Ware of Worcester lays claim to having traveled more miles, or at least as many, as any man now alive.

He has been a traveling salesman most of the eighty-five years of his life. Mr. Ware has been up and down and across the North American continent literally hundreds of times and estimates that he has covered more than 2,000,000 miles.

Most of Mr. Ware's traveling has been done in the interests of various firms which he represented as salesman, but he made extensive trips in Mexico. While in Mexico Mr. Ware traveled on a personal pass from President Diaz, whose friend and admiral he was.

Mr. Ware made an extensive tour through the Canadian northwest, and he was in the party which located the stations of the now famous Canadian mounted police, then just beginning their career.

Mr. Ware began his career as a traveling salesman when he was twenty and continued in it steadily for 53 years. In this period he says he passed half of his nights in sleeping cars and saw every city on the North American continent.

## ROME GAINS FROM U. S. MEN

Cab Drivers and Guides Keep Harvest During Visit of General Pershing.

Rome, Italy.—"Itching palms" were extended to the enlisted personnel attached to General Pershing's staff during the American commander in chief's visit to Rome. Cab drivers, professional guides, beggars, novelty vendors and guidebook sellers preyed on the Americans with avidity. One soldier paid \$5 to be driven from the station to St. Peter's, a trip ordinarily costing 40 cents, or by trolley four cents.

A guide at the Coliseum exacted \$4 for taking three privates and a sergeant through the upper tiers, while another guide at St. Peter's demanded \$7 for taking two boys through the Vatican museum, both of which are free to the public.

## RELIEF SHIP IS STOPPED BY ICE

Attempt to Reach Mission in Northernmost Alaska Again Fails.

REACH WITHIN 69 MILES

Dr. Marquis Brings Back Pitiful Tales of the Havoc Wrought by Influenza—Whole Villages Are Wiped Out.

Newport.—Turned back by an impenetrable ice-field within 69 miles of his goal, Dr. John A. Marquis, general secretary of the board of home missions of the Presbyterian church of the United States, was forced to return to New York without reaching his destination at Point Barrow, Alaska, the northernmost mission in the world operated by the Presbyterian church.

Dr. Marquis left New York June 23 and sailed from Seattle July 7 to Nome, where he boarded the United States coast guard service steamer Bear, to reach Point Barrow, but for the second time within two years this doughty little craft with its terrific crew was unable to buck the terrific ice jam of the arctic. For eight days the sturdy boat battled, but finally on August 15 it was forced to turn back. The supplies for Point Barrow were unloaded at Point Hope, 350 miles south of that town. From here it is expected that sledges will be able to carry some of them to the needy people at Point Barrow.

"Last year," says Dr. Marquis, "the Bear was able to get within 25 miles of Point Barrow, but the steady winds this year had forced the ice masses down farther south than they had been for years."

Ice at Latitude 70½. "Massive fields of ice were reached when we were at latitude 70½ degrees, Captain P. H. Uberroth, U. S. N., in charge of the Bear, declared the ice was the worst known since 1826."

Dr. Marquis went to Alaska to see about the appeal from the people there for the erection of a hospital at Point Barrow and also to study the opportunities for Presbyterian mission and school work generally in Alaska, particularly since the influenza epidemic last year wrought such havoc. He returns with interesting stories of the work and with pitiful tales of the terrible havoc wrought by the "flu," which in some sections wiped out whole villages.

On leaving Seattle July 7, Dr. Marquis took passage to the Aleutian islands and thence to Nome. At Nome passage was taken on the Bear and for six weeks Dr. Marquis was on this

government vessel. From Nome Dr. Marquis went to St. Lawrence islands and thence to Siberia. Leaving Siberia, the next stop was at the Diomed islands, and then to Cape Prince of Wales, the westernmost point of the American continent, about four hours west of Seattle.

Upon this trip the vessel's coal supply ran low and the Bear had to put back from Cape Prince of Wales to Nome for refueling. Leaving Nome the vessel began its journey to Point Barrow. Kotzebue sound was entered and stop was made at the village, where the Society of Friends had excellent missions, and then the Bear went north to Kivalina, where no mission fields are established, but which a few missionaries visit at intervals. From this point Dr. Marquis went to Point Hope, which until recently was one of the most famous whaling stations in the arctic regions. From there the great but futile attempt northward was made toward Point Barrow.

Dr. Marquis on his return trip gave special study to the conditions as left by the influenza epidemic. As a result he brings back with him pitiful stories of the terrible ravages wrought by this epidemic among the Eskimos.

Whole Villages Wiped Out.

In Nome alone, says Dr. Marquis, over 50 per cent of the Eskimo population was wiped out almost overnight, and in other sections of the country whole villages of igloos were swept away. In one town of 300 only thirteen adults were left alive, and small villages of twenty igloos or so with all inhabitants frozen stiff. In one case one little girl and a baby were found alive in a village. This child had kept herself from freezing to death by remaining wrapped up in bed with the baby beside her. The condensed milk which sustained her life she also took to bed with her. There had been no fire in the villages for days and the temperature was 50 degrees below zero.

According to Dr. Marquis, the Eskimos showed practically no resistance to influenza and went down almost without a fight. Among the foreigners the mortality was about the same as in similar communities in the United States.

We Knew What He Meant.

A German prisoner was brought in and questioned by the American intelligence officer. After the questioning the prisoner, who spoke English with a London accent, said that he had a question to ask. "I can not understand what that soldier who bayoneted me meant," he remarked plaintively. "There were three of us, Caspar and Max and me. This soldier came running at us and we all put our hands in the air up and said 'Kamerad.' But he shot Caspar and Max and put this bayonet into me and then he went running right on. And all he said was, 'Aw, go chase yourself.' I can not understand what that soldier should mean." And the officer explained that the Yank had merely remarked that he was in a great hurry.

## SEEK JOBS FOR CONVICTS

Dr. E. E. Dudding, founder and head of the Prisoners' Relief society, and his assistant, Miss Evelyn Abbott. The society has organized a campaign to raise a million dollars from a million-people. One of its chief activities is the placing of ex-convicts in suitable jobs, 5,000 having been placed last year. The headquarters of the society are in Washington. Doctor Dudding is himself an ex-convict, who has devoted his life to prison relief work without pay.

## Law and Literature.

In the history of literature there are many names of writers who, at one time or another, were connected with the legal profession. Among the men of letters who have practiced as attorneys are Lewis Theobald, the famous emendator of Shakespeare; Sir John Hawkins, the biographer of Doctor Johnson; James Smith, part author of "Rejected Addresses;" Barry Cornwall, poet and dramatist; Shirley Brooks, novelist and editor of Punch, and Sir Theodore Martin. Many other names are to be found among authors who have worked in solicitors' offices without being admitted, these including Warburton, Chatterton, Cowper, Borrow, Disraeli, Dickens and Meredith.

## Tricks of the Trade.
